## PHLEBOTOMISTS COUNCIL OF AUSTRALIA

### Membership Details

- THE PREFERRED METHOD FOR SIGN UP TO THE PHLEBOTOMISTS COUNCIL OF AUSTRALIA IS ONLINE THROUGH THE WEBSITE OF [WWW.PATHOLOGYCOUNCIL.COM.AU](http://WWW.PATHOLOGYCOUNCIL.COM.AU)
- Membership with PCA is unlike membership with Trade Unions. We offer Individual Representation that includes the expertise of a Legal Team for every case, as we found too many Pathology Workers were being advised to seek Independent Legal Advice on top of their Union Membership. This was causing them to not pursue their matters.
- At PCA we know that increasing the qualifications and knowledge will increase the value of a profession. That is why we have developed the PCA Professional Education and have given Pathology Workers the opportunity to be involved in the change to the formal qualifications for Pathology Collectors. Access to the PCA Professional Development, designed by Associate Professor Danny Simms is a membership benefit to PCA Members.
- To make membership more affordable, PCA fees can be paid as fortnightly, 3 monthly or 6 monthly payments over a yearly period, instead of an upfront annual payment and membership benefits can be accessed immediately.
- Membership fees and sign up are available via the website, easily accessed via the QR Code on the front of this form.
